

KMS TEKNOLOGI® PFD - DUPLEX PROCESS FILTER SERIES Duplex filter for water treatment

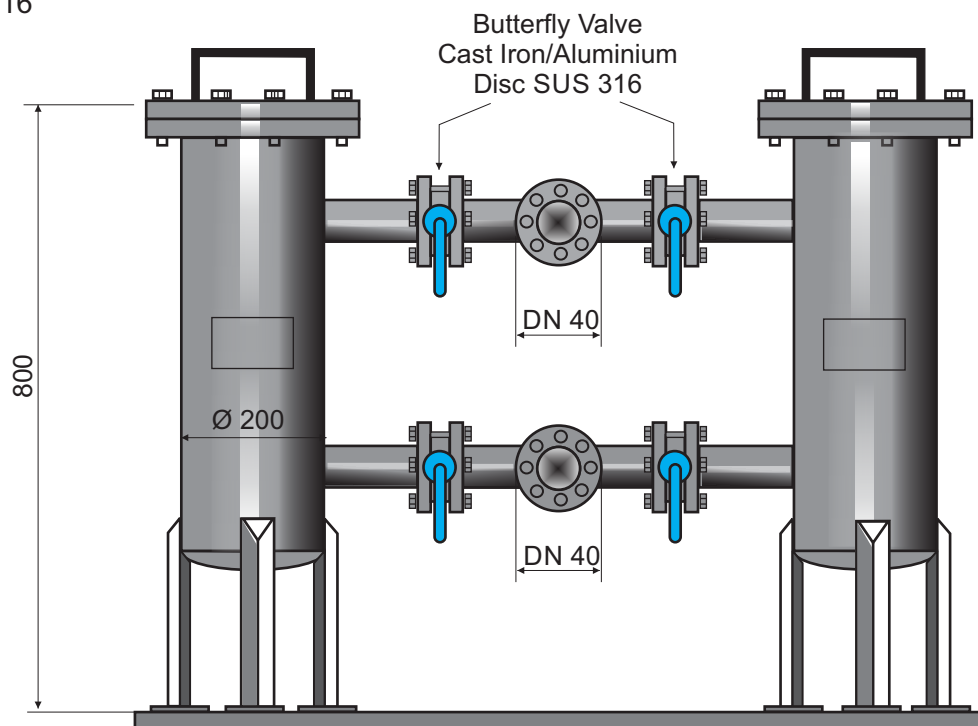

PFD 010 Series

KMS TEKNOLOGI® water filter for process technology are high performance quality products which contribute through their high quality to ensuring the function and to a large degree to extending the service life of components, systems and machine.

Longer service life, maximizing the quality of the fluid, to be filtered and the possibility of repeat use of the filter elements, together with low maintenance costs, reduce production costs and will impact to the environmental.

DUPLEX PROCESS FILTER UNIT
MODEL : PFD - 010 - 0200W - WF - DN40
BRAND : KMS TEKNOLOGI

Flow rate : 10 m³/h
Housing Material : Stainless Steel 304
Rating Filter : 200 micrometer
Filter material : Stainless Steel 304
Temperature maximum : 90 degC
Pressure maximum : 12 bar
Butterfly valve DN 40 (1,5") Iron/Aluminium Casting
Disc SUS 316

Completed with : 1. COO from KMS TEKNOLOGI INDONESIA
2. Warranty & technical support from KMS TEKNOLOGI INDONESIA

PROCESS FILTRATION

KMS TEKNOLOGI®

PFD - DUPLEX PROCESS FILTER SERIES

Duplex filter for water treatment

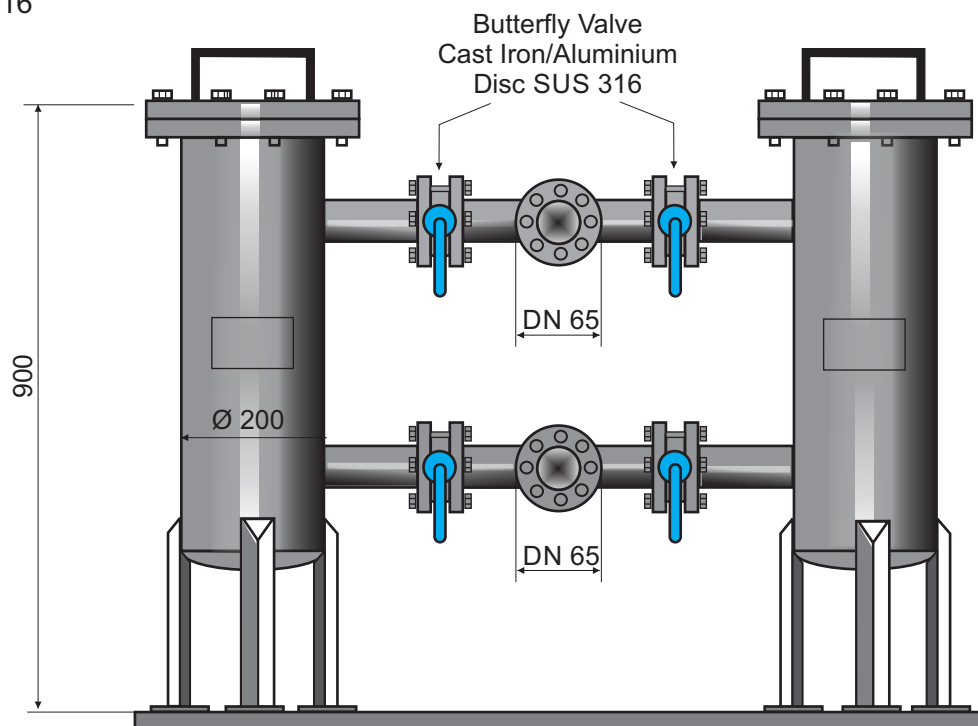

PFD 020 Series

KMS TEKNOLOGI® water filter for process technology are high performance quality products which contribute through their high quality to ensuring the function and to a large degree to extending the service life of components, systems and machine.

Longer service life, maximizing the quality of the fluid, to be filtered and the possibility of repeat use of the filter elements, together with low maintenance costs, reduce production costs and will impact to the environmental.

DUPLEX PROCESS FILTER UNIT
MODEL : PFD - 020 - 0200W - WF - DN65
BRAND : KMS TEKNOLOGI

Flow rate : 20 m³/h
 Housing Material : Stainless Steel 304
 Rating Filter : 200 micrometer
 Filter material : Stainless Steel 304
 Temperature maximum : 90 degC
 Pressure maximum : 12 bar
 Butterfly valve DN 65 (2,5") Iron/Aluminium Casting
 Disc SUS 316

Completed with : 1. COO from KMS TEKNOLOGI INDONESIA
 2. Warranty & technical support from KMS TEKNOLOGI INDONESIA

KMS TEKNOLOGI®

PFD - DUPLEX PROCESS FILTER SERIES

Duplex filter for water treatment

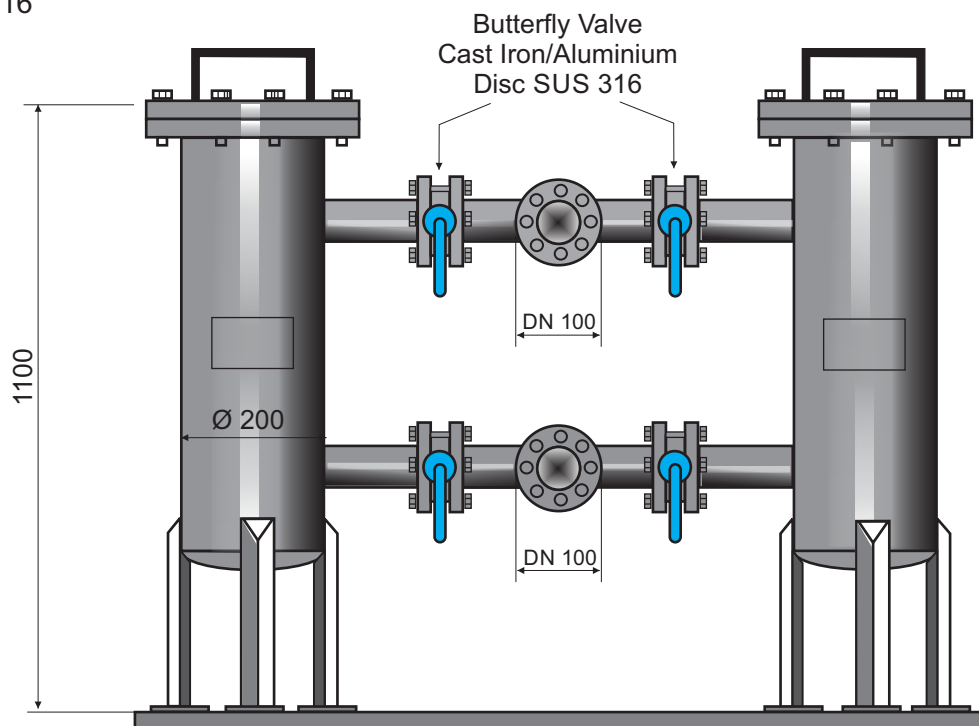

PFD 080 Series

KMS TEKNOLOGI® water filter for process technology are high performance quality products which contribute through their high quality to ensuring the function and to a large degree to extending the service life of components, systems and machine.

Longer service life, maximizing the quality of the fluid, to be filtered and the possibility of repeat use of the filter elements, together with low maintenance costs, reduce production costs and will impact to the environmental.

DUPLEX PROCESS FILTER UNIT
MODEL : PFD - 080 - 0200W - WF - DN100
BRAND : KMS TEKNOLOGI

Flow rate : 80 m³/h
 Housing Material : Stainless Steel 304
 Rating Filter : 200 micrometer
 Filter material : Stainless Steel 304
 Temperature maximum : 90 degC
 Pressure maximum : 12 bar
 Butterfly valve DN 100 (4") Iron/Aluminium Casting
 Disc SUS 316

Completed with : 1. COO from KMS TEKNOLOGI INDONESIA
 2. Warranty & technical support from KMS TEKNOLOGI INDONESIA
