

Plug & Play Replacement Filter Element

TANK BREATHER FILTER KMS TEKNOLOGI® - TANK BREATHER FILTER MODEL : BFK SERIES

KMS TEKNOLOGI® Breather Filter model BFK have filtration degree of 3 μm (micron) absolute. This means that 98.7% of all solid particles larger than 3 μm and approximately 50% of all particles larger than 0.8 μm are retained in one pass. Completed with one way check valve and Carbon active filter that make sure air flow circulations that come from outside will clean and free from moisture also particles contamination.

KMS TEKNOLOGI® MODEL : BFK 300 - S - C - 1B

Specifications:
Size 300 Series
Pore size 3 micron
Material Silica Gel, Fiber, Strainer Mesh, Plastic
Optimum air flow 400 l/m (with check valve)
Connection 1"BSPP

Dimension (approximately) :
Lenght : 270mm ; OD : 140mm ; ID : 130mm
weight : +/- 1,5 kg

Brand : KMS TEKNOLOGI®

KMS TEKNOLOGI® MODEL : BFK 250 - S - C - 3/4B

Specifications:
Size 250 Series
Pore size 3 micron
Material Silica Gel, Fiber, Strainer Mesh, Plastic
Optimum air flow 300 l/m (with check valve)
Connection 3/4" BSPP

Dimension (approximately) :
Lenght : 250mm ; OD : 110mm ; ID : 100mm
weight : +/- 1 kg

Brand : KMS TEKNOLOGI®
